

China Manufacture Quality Wholesale Natural Raisins For Global Bulk Buyers

If you are searching for premium and reliable wholesale raisins for bulk import and food manufacturing, Wushi County Sunshine Agricultural Products Co., Ltd. offers top-grade natural raisins that stand out in the global dried fruit industry. Our wholesale raisins are well-known for their pure natural sweetness, plump texture, uniform grain size, and excellent taste, making them a preferred choice for importers, snack factories, baking enterprises, and food distributors across the world. Adhering to strict quality control standards, we dedicate ourselves to providing the finest wholesale raisins with stable quality and competitive factory prices for all global clients.

As a professional agricultural export enterprise with complete industrial chain advantages, Wushi County Sunshine Agricultural Products Co., Ltd. owns large-scale self-built grape planting farms and modern automated processing factories. Different from ordinary trading companies that rely on external raw material suppliers, we realize full independent control from grape planting, manual seasonal harvesting, natural drying, intelligent processing to finished product packaging. Located in Wushi

County, Xinjiang, our planting bases enjoy abundant sunshine, huge day-night temperature differences, and clean ecological soil conditions. These unique natural advantages enable grapes to fully accumulate sugar, nutrients and flavor substances, ensuring our wholesale raisins feature richer taste, higher purity and better quality than ordinary raisin products on the international market.

To maintain the best product quality, we carry out rigorous multi-stage screening and processing procedures for every batch of raisins. After harvesting, raw grape materials are transported to the factory immediately for natural air drying and standardized treatment. We adopt mechanical impurity removal, high-precision color sorting equipment and manual fine selection to thoroughly remove shriveled grains, discolored particles, impurities and unqualified products. Only the fullest, cleanest and highest-quality raisins are selected for packaging and overseas delivery. This strict farm-to-factory integrated model allows us to completely avoid unstable quality problems caused by intermediate links and ensures every batch of wholesale raisins delivered to global customers reaches the highest industry standards.

Our company and wholesale raisin products have obtained authoritative international food safety certifications, including HACCP, BRC and HALAL. These globally

recognized qualifications fully meet the strict food safety inspection standards of European countries and comply with the dietary requirements of Middle Eastern markets. With full-process standardized production and traceable quality management systems, our raisins have successfully broken through international trade barriers and won wide recognition in global high-standard markets. Every production procedure is strictly supervised and recorded to ensure food safety and product stability for every overseas partner.

Benefiting from superior product quality, reliable after-sales service and stable on-time shipment, our premium wholesale raisins have earned consistent praise and long-term cooperative orders from numerous European and Middle Eastern customers. Our products perform excellently in various international food exhibitions and gain constant attention from global bulk buyers. After years of continuous market expansion, our high-quality wholesale raisins have been exported to more than 120 countries and regions worldwide.

We support diversified customized services, including different packaging specifications, private label printing and personalized product solutions to satisfy various market demands. Whether for food deep processing, retail sales or catering distribution, our wholesale raisins can perfectly meet your business needs. If you are looking for a trustworthy, stable, and high-quality wholesale raisin supplier, Wushi County Sunshine Agricultural Products Co., Ltd. is your most reliable long-term business partner.
